RESEARCH EXPERIENCE

Research Assistant, Affective Science and Health Laboratory

September 2019 – Present

University of Toronto

Works closely with Dr. Brett Ford on multiple longitudinal psychology research projects. Project topics include: Emotion regulation and wellbeing during the U.S Presidential impeachment, information seeking as a form of emotion regulation during the COVID-19 pandemic, and emotion regulation after witnessing anti-black racism and its implications for political action. Developed tactful theoretical skills while constructing conceptual models, proposing research questions, and formulating hypotheses to guide novel and ecologically valid research design. Applied statistical training during data entry, cleaning, coding and execution of appropriate tests in SPSS. Interpreted results for in prep paper on witnessing racism and emotion regulation. Software utilized regularly include: Qualtrics, SPSS, and Excel.

Principal Investigator, Inbar Lab

September 2019 – April 2020

University of Toronto

Lead investigation into the role of political orientation and the moralization of public social norms under the supervision of Dr. Yoel Inbar. Conducted extensive literature review across domains of psychology, sociology, and philosophy to ensure informed theoretical model. Proposed research questions and hypotheses with consideration of previous literature, spent considerable time operationalizing study dependent variable of moralization by considering work across multiple disciplines. Proposed research design, and constructed in Qualtrics. Gained introduction to data analysis in JASP. Presented poster of project at the Society for Personality and Social Psychology's annual convention in New Orleans, and the UTSC Undergraduate Poster Forum in Toronto. Project culminated in a comprehensive paper which earned the UTSC Undergraduate Research Prize.

Research Assistant, Daniel Gilbert Lab

May 2019 – August 2019

Harvard University

Worked closely with Adam Mastroianni on multiple social psychology research projects through data cleaning, entry, preliminary analysis, and experimental design. Presented innovative solutions to visualize data such as transposing geolocations onto maps for preliminary analysis, and using Excel coding to streamline mTurk bonusing. Attended weekly lab idea sessions to share compelling research questions, defend arguments, and provide constructive criticism. Utilized Qualtrics, PsycINFO, and Excel daily.

Research Assistant, Kang Lee Nuralogix Lab

March 2018 – July 2018

University of Toronto

Conducted multi-stage research protocols to aid in developing a Transdermal Optical Imaging technology to measure blood pressure through a conventional camera. Worked carefully with unique experimental equipment to record participant facial expressions while collecting intermittent blood pressure measurements. Respectfully voiced suggestions during lab meetings to eventually bring positive change to experimental design.

WORK EXPERIENCE:

Photography Instructor, Syrian Canadian Foundation

September 2020 – Present

Leads photography workshops as part of the Photovoice program for newcomer youth in the Greater Toronto Area. Fosters inclusive environment for youth to explore photography as a medium to express their unique settlement experiences. Drafts lesson plans, leads weekly zoom-sessions, challenges participants to think deeper about their own experiences, emotions and art.

Ali Javeed

Toronto ON, ali.javeed@mail.utoronto.ca

www.ali.javeed.com

Editorial Staff, The Underground, UTSC

August 2017 – January 2019

Managed a team of editors to create and pitch engaging article ideas to appeal to both niche and general readers at the University of Toronto Scarborough's official student publication, The Underground. Reviewed articles for factual, ethical, and parsimonious communication of ideas. Positions held over course of term (not concurrently): Science and Technology Editor, Associate Photo Editor, Managing Editor.

Gallery Assistant, Royal Ontario Museum

March 2013 – December 2017 (Seasonal)

December 2017 – April 2019 (Part-time)

Engaged guests by leading hands-on activities and educating about artifacts. Monitored and predicted the usage of supplies, to ensure adequate materials are present at workstations. Consistently communicated concerns and tips with team members and supervisors. Seasonal work was with ROM for the Holidays and ROM March Break Galleries.

Senior Sports/Arts & Crafts Counselor, Camp UofT, UTSC

Summer, 2016, 2017

In a fast-paced team setting, led recreational activities for campers aged 6-12 years. Drafted and implemented 8-weeks of engaging programming for 650-800 campers.

RELEVANT COURSES:

(* = A- or greater achieved)

(** = impacted by COVID-19 pandemic)

Completed:

- Introduction to Social Psychology*
- Cross Cultural Social Psychology*
- Advanced Research Methods**
- Social Psychology Research Methods*
- Data Analysis in Psychology*
- Advanced Data Analysis**
- Scientific Communication in Psychology*
- Psychology of Emotion*
- Psychology of Perception *
- Physiological Psychology*
- Social Cognition*
- Independent Study in Psychology*
- Introduction to Clinical Psychology*

Enrolled: (Fall Semester)

- Psychology and the Law
- Judgement and Decision Making
- Memory and Cognition (seminar)
- Thesis: Witnessing discrimination: An emotion regulation perspective

Enrolled (Winter Semester):

- Introduction to Personality Psychology
- Psychology of Self-Control
- Drugs in the Brain
- Psychology of Interpersonal Relationships (seminar)
- Thesis: Witnessing discrimination: An emotion regulation perspective

EXTRACURRICULAR EXPERIENCE:

Campus Coordinator, Hygiene on Wheels

December 2017 – April 2019

Actively approached and built relationships with student groups on campuses to secure hygiene supplies for mobile sanitation vehicle. Provided weekly reports to founder with targets, successes, and improvements.

UTSC Undergraduate Journal Club

September 2018 – April 2019

Attended weekly meetings to discuss and critique topical journal articles in the fields of Psychology and Neuroscience.

Ali Javeed
